Nos cuisines et procédures de traitement des aliments sont conçues pour vous garantir un niveau de sécurité des aliments maximal. Cependant, notre carte évoluant, vous pourrez remarquer l'apparition de traces de certains allergènes sur nos produits. L'information sur les 14 allergènes à déclaration obligatoire est établie sur la base des informations de nos fournisseurs sur la composition de leurs produits (présence + traces d'allergènes). Lors des étapes de fabrication en restaurant, nous ne pouvons exclure le risque d'une présence accidentelle (contamination croisée) d'autres allergènes. Certains de nos produits peuvent contenir des traces de fruits à coques, d'arachides, de mollusques et/ou de crustacés. Par ailleurs, les produits frits à base de poulet, de fromage, de poisson, de pommes de terre et autres sont cuits dans les mêmes friteuses.

## LISTE DES ALLERGÈNES

Nos cuisines et procédures de traitement des aliments sont conçues pour vous garantir un niveau de sécurité des aliments maximal. Cependant, notre carte évoluant, vous pourrez remarquer l'apparition de traces de certains allergènes sur nos produits. L'information sur les 14 allergènes à déclaration obligatoire est établie sur la base des informations de nos fournisseurs sur la composition de leurs produits (présence + traces d'allergènes). Lors des étapes de fabrication en restaurant, nous ne pouvons exclure le risque d'une présence accidentelle (contamination croisée) d'autres allergènes. Certains de nos produits peuvent contenir des traces de fruits à coques, d'arachides, de mollusques et/ou de crustacés. Par ailleurs, les produits frits à base de poulet, de fromage, de poisson, de pommes de terre et autres sont cuits dans les mêmes friteuses.

BURGER KING

LISTE DES ALLERGÈNES
